## Day 2 – Sunday :: Havana ~ biking, walking & classic car tour

Colorful band of musicians and dancers on stilts on a narrow Old Havana.

After a great breakfast we depart around 9:00am on the bus to the bicycle pick-up point in western Havana. Here **we will start our bike tour** travelling through Havana towards the sea-side malecon. Enjoy the scenery and several interesting stops along the way. Biking the streets will give you a great perspective on Cuban city life. Our bike tour will last a maximum of 3 hours and circle through the old city and return back to our starting point in western Havana.

We leave the bikes behind and **continue via old classic American cars** through the streets of Havana to Morro Castle. This Castle was built by the Spanish to protect Havana bay and the city from pirates, buccaneers and invading countries. Our classic car ride continues into Old Havana to further explore monuments, streets, churches and shops but first we will recharge with a great lunch at Temple restaurant and then continue by foot.

Old Havana, a UNESCO World Heritage Site has 5 historic plazas, we will visit 4 of them. Havana contains the largest collection of remaining colonial-era architecture.

This is a **private tour led by your Educational Tour guide.**

**1- Cathedral Square, the most beautiful and private 18th century colonial plazas on the island.**

Named after the masterpiece of Cuban baroque

architecture: The Cathedral de San Cristobal de la Havana built by the Jesuit order.

2 – Square of Arms, an ancient military parade ground for Spanish soldiers, surrounded by impressive buildings such as: Palacio de los Capitanes Generales, former seat of colonial government. Today the building houses the Museum of the city. Palacio del Segundo Cabo [Palace of the Second Lieutenant] dates from 1770. Today it is home to the Centro para la Interpretación de las Relaciones Culturales Cuba - Europa [Center for the Interpretation of Cultural Relations Cuba-Europe].

3 – We continue onto San Francisco Square, one of the oldest plazas in the historical quarter. The square is named after magnificent Iglesia y Monasterio de San Francisco de Asis dating from the 16th century. The basilica is a striking example of Cuba baroque architecture.

4 – Then on to Plaza Vieja, the only civic square of colonial times. Absent are the churches, and government buildings, and is in contrast surrounded by opulent aristocratic 17th century residences. We'll visit an important center for the visual arts. After visiting the old squares we will continue to Havana's National Art Museum. Take in the exhibits and through this expression of art the Cuban culture really enlightens its admirers. Just in front of the Art Museum is the Historical Revolution Museum. This is a great display and a reminder of Cuba's struggles for change. What a great day taking in the culture of Cuba and its people. A short bus ride takes us back to accommodations for the night.
